SWOT Analysis

TIP

We are aware of the importance of knowing our areas of strength and weaknesses, and we have gone to a good length to make that known.

Biztalk Calling Services, LLC engaged the services of a core professional in the area of call center consulting and business structuring to assist the

Start Writing here...

Strengths

Our core strength lies in our service offerings, the power of our team, and the state-of-the-art call center equipment and software applications that we have. We have a team that can go all the way to give our clients value for their money. We are well-positioned in the heart of Woodbridge, Detroit and we know we will attract loads of clients from the first day we open our call center for business.

Weaknesses

As a new call center in Detroit, it might take some time for our organization to break into the market and attract some well-established corporate clients; that is perhaps our major weakness. Another weakness is that we may not have the required cash to pump into the promotion of our business the way we would want to.

Opportunities

The opportunities in the telemarketing and call center industry are massive especially in Detroit, and we are ready to take advantage of any opportunity that comes our way.

Threats

Technology and the internet which of course is a major tool for the advancement and gains achieved in the telemarketing and call center industry can also pose a threat to the industry. The truth is that with the advancement of technology, it is now easier for organizations to leverage software applications to conduct their telemarketing, market research, and communicate with their clients.

6.

Strategy & Implementations

Sales Strategy

Advertising Strategy

Sales Forecast

REMEMBER

After identifying the market demand, market trends, and the potential customers of the startup, the next step is to define an effective strategy for attracting those customers. Like marketing analysis, sales strategy is also an important component of a Call Center business startup and must be properly planned before you think about starting your own Ca
