Competitive Analysis

Key Competitive Strategies

Customized Services

These "tailor-made" services offer the customer a personal connection to the product that he/she is purchasing. This type of service is not commonly offered in today's retail marketplace.

Printing Services

The added printing products service within the gift shop is unique for a gift shop. This will enable customers to bring in personal photographs and mementos or email digital images to create greeting cards, 12-month calendars or business cards. These types of items then become personal keep-sales and one-of-a-kind type merchandise.

Handmade/Handcrafted Products

The handcrafted products will be designed by owner Mrs. Dora Wellington as well as outside entrepreneurs. We will showcase their crafts on consignment. This will also broaden our own product line.

Brand Identity

The proprietary products that we design will be distinguished from other products by brand labels. Our brand name merchandise makes up 50% of our present product line. Promoting "brand recognized" merchandise connects the customers to products that represent high-quality and dedicated customer service.

Key Competitive Weaknesses

Range of Product Line

Although Wellington Gifts & Cards Shop's present product line is unique and high-end merchandise, the range of our products is considered small in relation to more established businesses. Yet these items are engaging and personable.

Location of the Gift Shop

Because the area is in its developing stages of residential and commercial enterprise zones, business traffic is relatively slow. However with time, west midtown will undoubtedly generate a trafficflow of curious residents and outside customers.

Marketing Strategy

Although Wellington Gifts & Cards Shop products are high-end and stylish, our pricing structure remains affordable and in-line with other specialty gift retailers. Our pricing structure is also based on the value the customers place on these products.
