# Upmetrics vs Financial Spreadsheets

Spreadsheets can be a powerful tool for preparing complex financial reports and forecasts. However, using them can be quite time-consuming, intimidating, and frustrating.

The image shows the Upmetrics Financial Plan interface. On the left, there are three tabs: 'Profit & Loss', 'Balance Sheet', and 'Cash Flow'. The 'Profit & Loss' tab is selected, showing a table with columns for '2023-04' and '2024-04'. The table includes rows for Revenue, Cost of Sales, Gross Margin, Gross Margin (%), and Operating Expenses. Below the table, there is a section titled 'What price will you charge for each unit?' with a 'Current Amount' of \$ 40 and a 'Per Unit' value. On the right, there is a Google Sheets spreadsheet with a similar table structure, showing the same data as the Upmetrics interface. The spreadsheet has columns A, B, C, D, and E, and rows 1 through 17. The data in the spreadsheet matches the data in the Upmetrics interface.

Upmetrics could be your way out of boring & clumsy spreadsheets. Simply enter the numbers, and get accurate and easy-to-understand financial reports made in minutes - no more remembering complex formulas or fussing in the spreadsheet.
